WHY: **Message from Director Yarn:** *"The RI Veterans Affairs commitment to serving veterans and their families must be unwavering. Veterans and their families must know that the State of Rhode Island is always truly indebted to our veterans for their service and sacrifice. In order for the Office to be a success, we must first define the problem and strengthen our partnerships locally, regionally and statewide. We must have an active presence in all 39 municipalities. As a result, over the next 39 weeks, I have launched the veteran affairs "I hear you" outreach plan. Within the 39 weeks I will sit down and visit every municipality in the state."*
