

College Navigator — Find the School That's Right for You

Searching for the right school for your postsecondary education can be challenging. The [College Navigator](#), a free online tool from the National Center for Education Statistics, can help you with your search. The tool provides a wide range of information for more than 7,000 postsecondary education institutions, allowing you to compare schools' features that are most important to you like the following:

- Tuition and cost of attendance
- Financial aid statistics
- Accreditation information
- Graduation and retention rates
- Credit transfer
- Student loan default rates

Begin your search

The college search has gotten a bit easier with [College Navigator](#). This free tool is easy to use — just enter the information and click "Show Results." It's just that easy. Your search results will provide a wide range of information, as well as the opportunity to do the following:

- Refine your search to select additional criteria
- Build a list of schools for side-by-side comparisons
- Pinpoint school locations on an interactive map
- Export results into a spreadsheet
- Save your search session

This tool takes the guesswork out of researching and comparing schools. Check it out and start achieving your education goals today.

Set up

an appointment with an [education consultant](#) to discuss college information, scholarships and financial aid.
